CAUTION: ADULT SUPERVISION SHOULD BE ENCOURAGED FOR YOUNG CHILDREN. ASSEMBLY BY ADULT IS RECOMMENDED. DO NOT EAT.

DESIGN TIPS

If beads get stuck, turn pen upside down, shake

If beads get stuck in bead storage, lift lid, push finger into beads, replace lid

Ensure hands are dry when handling beads

Too much water makes the beads sticky and requires longer drying time

Ensure designs are dry to touch before removing from bead tray

Gently sliding a design template under the dried bead design will help remove it easily from the bead tray

To make design stronger, spray water on reverse side of final design and let dry overnight

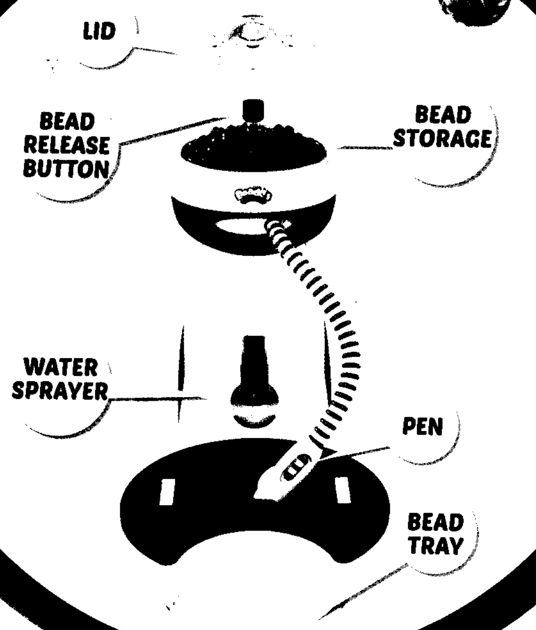

Wash bead tray well with soapy water after use and allow to air dry

Wash hands well with soapy water after handling beads

BRACELET INSTRUCTIONS

1. Place design template in the back of bead tray under tabs.

2. Place the Crystal Beads on the tray matching the colours shown on the template.

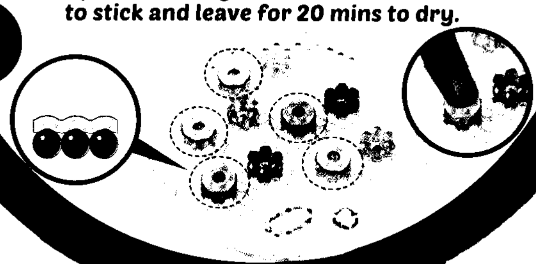

*See Design Tips in Crystal Designer Studio Instructions

3. Holding water sprayer 5cm away, spray each ring design once so the water evenly covers all the Crystal

4. While the Crystal Beads are wet, place the connector disks on top of the 5 rings shown below. Hold for 10 sec to stick and leave for 20 mins to dry.

5. Remove the 5 ring designs without connector disks from the tray once dry then spray each connector disk once again.

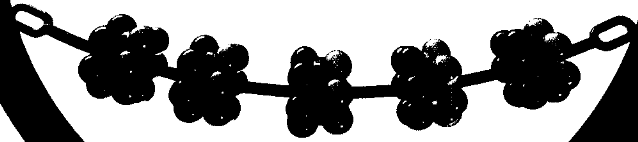

6. Place the dry ring designs on top of the wet connector disks and hold for 10 sec to stick. Once all disks are in place spray each cluster once with water and leave to dry for another 20 min.

7.

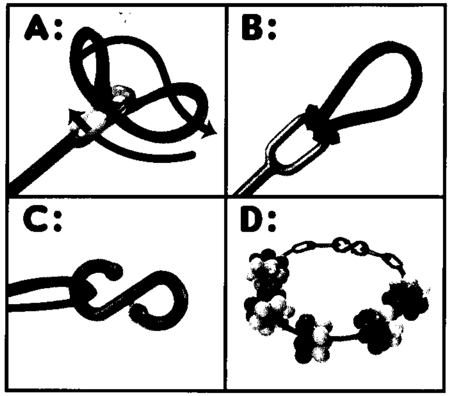

Once all the Crystal clusters are fully dry, feed them onto the bracelet cord so that each cluster is on a ball.

8.

Feed rubber band through the eyelets of the bracelet and loop back through itself.

RING + NECKLACE INSTRUCTIONS

1.

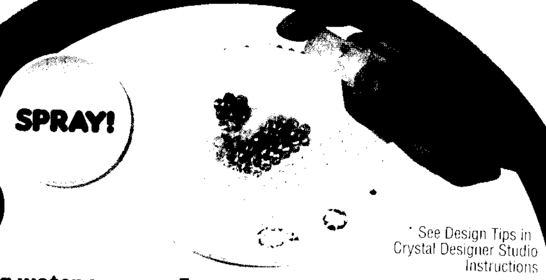

Place design template in the back of bead tray under tabs.

2.

Place the Crystal Beads on the tray matching the colours shown on the template.

3.

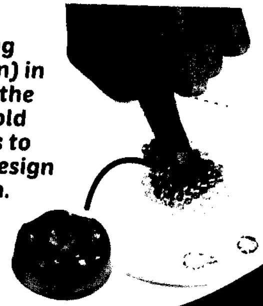

* See Design Tips in Crystal Designer Studio Instructions

Holding water sprayer 5cm away, spray your design 5-6 times so the water evenly covers all beads of your design.

4.

Place the connector plug (dimples down) in the centre of the wet design. Hold for 10 seconds to stick and let design dry for 20 min.

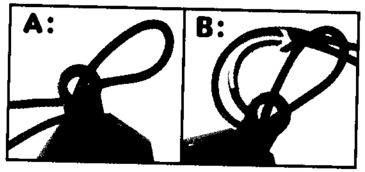

5.

Once design is dry, carefully remove from bead tray and plug the design into the ring or locket. Simply pop the design out to mix up your look!

6.

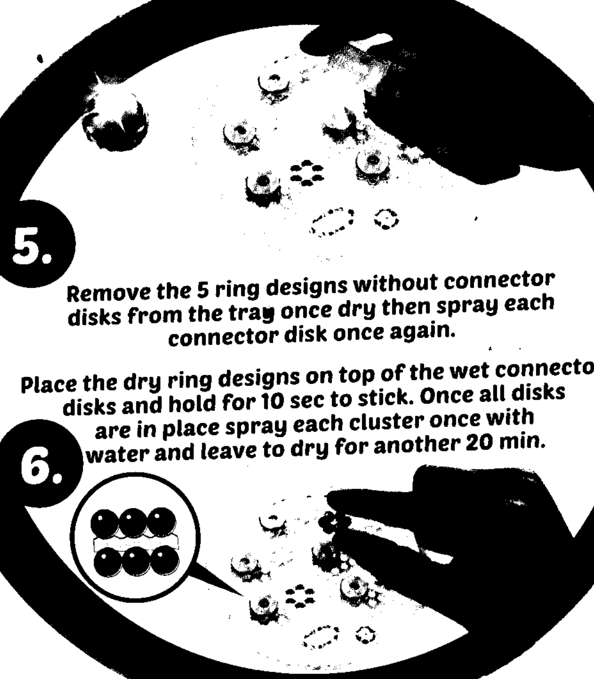

Before wearing the necklace, feed the looped end of the string through the eyelet. Then pull the clasp through the loop. Pull tight before wearing!

5.

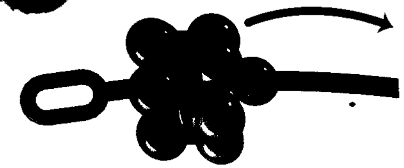

Remove the 5 ring designs without connector disks from the tray once dry then spray each connector disk once again.

6.

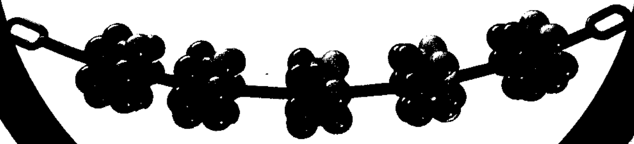

Place the dry ring designs on top of the wet connector disks and hold for 10 sec to stick. Once all disks are in place spray each cluster once with water and leave to dry for another 20 min.

7.

Once all the Crystal clusters are fully dry, feed them onto the bracelet cord so that each cluster is on a ball.

8.

Feed rubber band through the eyelets of the bracelet and loop back through itself.
